

**Happy
Babyhood**

Harringtons

“The best is not too
good for Baby.”

"Most excellent."

A Comfort alike to
Mother and Baby

Harringtons Squares (Regd.)

USED IN THE ROYAL NURSERY

Greatly superior to Turkish, Linen or Swansdown.

More absorbent than any other material.

Very soft to the skin, and never strike cold.

No chafing or irritation.

Much more comfortable for "Baby."

They wash perfectly. (The more they are washed the softer they become !)

They dry in a few minutes.

Most durable and satisfactory in wear.

DIRECTIONS FOR WASHING

Leave the soiled Squares to soak awhile in cold water.

Boil well in clean, soapy water.

Rinse THOROUGHLY in luke-warm water and again in cold.

Do NOT iron or mangle.

So washed they will last for years, and always be found perfectly satisfactory.

N.B.—These Squares or Towels should NOT be sent to a Steam Laundry.

Approved by over 5,000 Nurses

Awarded the Certificate of Merit of the Institute of Hygiene

The above are made of Harringtons Hygienic Absorbent Gauze from a specially twisted yarn—the unique feature of which is that after washing, it becomes soft and fluffy, giving the material the touch of finest wool.

"Extremely comfortable."

" Perfectly delightful."

For the
New Baby

Harringtons Baby-Outfit

(Hygienic)

Comprising 2 dozen

Harringtons Squares

and three each of the following :

Harringtons " Half-Squares "

Harringtons " Face Towels "

Harringtons " Bath Towels "

Harringtons " Head Squares "

Harringtons " Binders "

Harringtons " Feeders "

Harringtons " Cot Pads "

Harringtons " Swabs "

Harringtons " Bibs "

Simply Ideal for Baby's Use and Wear

70/-

All of the above are made of Harringtons Hygienic
Absorbent Gauze, as described on Page 2.

MANUFACTURED IN ENGLAND BY

HARRINGTONS (London) LTD.

London Offices and Showrooms :

137 Cheapside, E.C.2.

Special attention is drawn to the fact that " Harringtons Gauze " is not " butter muslin. " The latter is sometimes employed but is proved to be an entirely unsatisfactory material for the purpose.

" The very thing for Babies. "

"Far superior to Turkish Towelling."

Harringtons Hyg

for Ladies

s exceptionally light and soft and is ideal for the
it of Messrs. Harringtons' Specialty, and we can
the fullest confidence."

"I find the material perfect."

"A great improvement upon the old styles."

Why Harringtons Squares are best for Baby

- | | |
|-------------------|---|
| The Baby's Skin. | As everyone knows, the skin of Baby is very delicate, and if moisture is allowed to remain in contact, the result will be chafing and sore irritation. |
| Quick Absorption. | HARRINGTONS SQUARES are so porous and absorbent, that all moisture is taken up at once—the layers next to the child becoming dry almost immediately. This means comfort for the "little one" not possible with any other Diaper. |
| Labour Saving. | One point of great importance about HARRINGTONS SQUARES is that they are so easy to wash, and so easy to dry. There is no need to wait for 10 hours—HARRINGTONS SQUARES will dry in 10 minutes before the fire, or in the open air. |
| Baby's Opinion. | Great as is the appreciation of HARRINGTONS SQUARES by Mothers and Nurses, it is as nothing compared with the appreciation from "Baby." |
| Such a Comfort. | The fabric is so soft and ductile, fitting cosily and snugly into the dimpled lurks of the little one, that comfort and contentment become a matter of course. |
| Always the Same. | These Diapers never lose their dainty softness nor become harsh, and will always be found kindly and soothing to the skin of Baby. |
| Baby will Thrive. | If you can ensure contentment for Baby, you will do more than anything else to make the little one thrive. |
| Perfection. | HARRINGTONS SQUARES are the softest and most comfortable fabric for the purpose—they create comfort and so bring contentment. |

"The 'BEAU-IDEAL' of COMFORT & CLEANLINESS"

—Dr. Lauxun-Brown, in "Information for the Home."
